Cleaning instruction

Kenny&Mason tapware and accessories are made from premium quality brass, hand polished and then electroplated in a range of finishes. While Kenny&Mason coatings have a greater thickness and higher quality than usual, please follow these cleaning and care instructions in order to maintain the beauty of the product you have selected and to preserve your warranty.

The ideal care for all fittings is to dry them with a soft cloth after each use. Fittings should be regularly cleaned with warm water or a mild ph-neutral liquid soap and water and polished with a clean soft cloth. A microfiber cloth is gentle and effective for cleaning without scratching and needs only to be dampened to clean the product.

Residue left by personal hygiene products such as liquid soap, tooth paste, shampoo and shower gel can cause damage. Always rinse these off the fittings with clean water immediately after use.

Under no circumstances should harsh cleaning agents containing acidic, caustic or abrasive components or citrus, bleach or alcohol based substances be used to clean these fittings and should not be allowed to remain on metal finishes. Avoid dripping or overspraying such cleaning agents by covering the fixtures with a cloth or towel and metal finishes splashed with these products should be immediately rinsed with clean water and dried.

Do not use abrasive cloths, scouring pads, scrub sponges, steel wool etc as they may damage the surface.

If water causes lime or mineral deposits to build on the finish, place a cloth soaked in white vinegar over the deposits for several hours, then try a liquid soap cleanser. Drying the fitting with a soft cloth after each use will prevent mineral deposits.

CHROME: is the hardest and most durable finish in situations with daily cleaning. It may be cleaned with water or mild soap and water and dried off afterwards. It is still prudent to avoid commercial cleaning products which may contain corrosive chemicals.

NICKEL and BRUSHED NICKEL: finishes are known as “living finishes” which over time will develop a natural patina, giving them a distinctive classic look. Nickel and brushed nickel finishes require regular care and it is important to dry these finishes after use.

Some water contains minerals that will leave deposits as water spots if allowed to dry on the finish. If this occurs, clean the fitting with soap and water and a soft cloth as above and occasionally give it a very light polish with Autosol (available from automotive suppliers) to restore the original sheen.

GOLD: plated products contain real 18 carat gold in the coating and being the softest finish, should be treated as you would treat any piece of fine jewellery. They should only be cleaned with warm water and a mild ph-neutral liquid soap and dried with a chamois leather cloth. Gold plating can be scratched and discoloured by perfumes contained in some soaps and lotions and the finish on a frequently used fitting may over time wear on the handle where it is frequently touched.

POLISHED BRASS and OLD BRASS: Is a natural uncoated finish and will age to a bronze colour. It can be cleaned with a mild soap and water which will not alter the ageing process.

If used in an outdoor environment, the brass may garner some verdigris with greenish tinge in places giving a truly organic look. This will not affect the performance of the product. To stop the ageing the tap can be sprayed with beeswax and polished with a dry cloth.

Warranty terms and conditions

Kenny&Mason consistently produces the finest bath products in the world while providing highly personalized attention and detailed support to make the design and building process as smoothly as possible. Our extensive product range is crafted to simply be superior in every way. Attention to detail, quality and craftsmanship are an instinctive part of our manufacturing process. In every product we make, the mode of manufacture is carefully controlled - to satisfy the most demanding tastes.

Warranties information:

Warranty on taps and accessories 10 Year

Warranty on quarryl bath tubs 25 Year

Warranty on cast Iron bath tubs 10 Year

Warranty on china 10 Year

Warranty on cartridges 2 Year

Terms&Conditions

1. All products should be installed in compliance with current water regulations by a fully qualified plumber and access should be allowed for maintenance.
 2. All products should be cleaned and maintained in accordance with the manufacturerís recommendations. See the “cleaning instructions” on the previous page.
 3. The guarantee does not cover faults caused by incorrect installation, neglect, misuse, wilful damage, wear & tear or inappropriate cleaning, failure to follow any recommended instructions, damage from lime scale or water content and other events outside the manufacturerís control.
 4. No costs for replacements or labour will be repaid under this guarantee unless prior written agreement has been obtained from Kenny&Mason.
 5. This guarantee does not cover any claims for consequential losses or damage.
 6. The guarantee is not transferable and covers the original purchaser only.
 7. All claims should be made through the original supplier and be accompanied by a copy of the original invoice.
 8. All products should be carefully inspected prior to installation and if any faults are found the product should be returned for exchange and not installed.
 9. Due to continuous product development we may not be able to provide a like for like replacement for a faulty product throughout the guarantee period. Should this be the case we will supply the nearest equivalent from the then current range. Under these circumstances we are not liable for any re-fitting difficulties or installation charges.
 10. This guarantee is in addition to and does not affect your statutory rights.
- price list current at the date of placement of order.

Legal Notice:

- 1 All quotations are subject to the terms and conditions stated herein as well as any additional terms and conditions that may appear on the face of the accepted quotation. In the case of conflict between the terms and conditions stated herein and those appearing on the face of the accepted quotation the latter shall prevail.
- 2 All prices are subject to change without notice. The prices shown in this catalog supersede all previous catalogs. However, we cannot control price increases by our suppliers. We also reserve the right to correct misprints. We will notify you before charging you more than the price shown in this catalog during the catalog's life
- 3 Unless otherwise specified in writing, all quotations expire 30 days after date of issue, and may be terminated earlier by notice and constitute only solicitations for offers to purchase. Further, budgetary quotations and estimates are for preliminary information only and shall neither constitute offers nor impose any obligations or liability on the Seller.
- 4 The prices of the goods shall be the Seller's quoted price or where no price has been quoted, the price listed in the Seller's published price list current at the date of placement of order.
- 5 Unless otherwise stated in writing by the Seller all prices quoted shall be ex-works and shall be exclusive of VAT, United Kingdom export and overseas import duties, carriage, insurance, installation, commissioning, taxes or duties levied on the Seller in the Buyer's country with reference to the goods or any work undertaken for the Buyer and any other ancillary costs in respect of which the Seller shall be entitled to make additional charges
- 6 On no account may cancellation be accepted for any order. Orders may be modified after prior negotiation and agreement. Notification of any request for modification must be made in writing at least 30 days before the date of dispatch of the Goods
The Buyer shall be responsible for ensuring that the description, code numbers and other details relating to the Goods are correctly specified in the accepted quotation
