Kenny & Mason is mostly known for a more classical and industrial design with a range of authentic finishes such as the Old Brass. With our Bandwood collection we have taken a more modern approach in designing our latest range of taps. While honouring our strong reputation of craftsmanship and expertise we can guarantee a new high quality range worthy of the Kenny&Mason label. This new elegant looking collection perfectly compliments our existing range of products which now offers a perfect solution for both the traditional, rural interiors as well as the more minimalistic interiors.
