# Kenny&Mason

## *Master tap makers since 1911*

### En

*Kenny&Mason* dates back to 1911. The company was founded near Birmingham, a region that had acquired world fame in the production of brassware since the 18th century and is considered the heart of the English brassware industry.

Over the years, *Kenny&Mason* developed an outstanding reputation in the classic sanitary industry. Each of our products is handmade by skilled craftsmen in one of our factories. A *Kenny&Mason* tap takes hours of intensive manual labour; each product has its own soul. They are characterized by the subtle blend of timeless beauty and classic design, advanced technologies and authentic craftsmanship, and the use of the highest quality materials. Worldwide, the collection of *Kenny & Mason* can be found in a variety of projects ranging from exclusive hotel projects to spas and private projects.

### Nl

*Kenny&Mason* vindt zijn oorsprong in 1911 in Birmingham, het hart van de Engelse kranenindustrie. Deze regio verwierf sinds de 18de eeuw zijn wereldfaam in de productie van messing kranen. Over de jaren heen ontwikkelde het zich wereldwijd tot een begrip in de sanitair industrie. Ieder *Kenny&Mason* product wordt handgemaakt door ervaren ambachtslieden in 1 van onze fabrieken en vraagt uren van intensieve handenarbeid waardoor ieder product zijn eigen ziel heeft. Het kenmerkt zich door de subtiele mix van tijdloze schoonheid en design, vooruitstrevende technologieën en authentiek vakmanschap

waarbij steeds gebruik gemaakt wordt van hoogwaardige materialen. Wereldwijd vindt men de collectie van *Kenny&Mason* terug in diverse projecten gaande van exclusieve hotel projecten, tot kuuroorden en private projecten.

### Fr

L'origine de *Kenny & Mason* se trouve à Birmingham, épice centre de la robinetterie anglaise. Cette région acquit une réputation mondiale dans la production de robinets en laiton. Au fil des années elle devint une référence en matière d'industrie sanitaire. Chaque pièce de *Kenny & Mason* est produite manuellement par un de nos artisans et exige des heures de travail minutieux. Ce qui procure à chaque produit une authenticité et un charme individuel. Design, beauté intemporelle, technologies de pointe et savoir-faire sont les mots-clés. Seuls les meilleurs matériaux sont utilisés. La collection *Kenny & Mason* se retrouve dans divers projets, qu'il s'agisse d'hôtels exclusifs, centres thermaux et projets privés.

### Du

*Kenny & Mason* geht zurück bis ins Jahr 1911, wo es in der Region um Birmingham, dem Herzen der englischen Messingindustrie, gegründet wurde. Diese Region hat sich seit dem 18 Jahrhundert ihren Weltruhm in der Produktion von Messingware erworben. Im Laufe der Jahre entwickelte die Firma einen hervorragenden Ruf in der klassischen Sanitärindustrie. Jedes *Kenny & Mason* Produkt wird von erfahrenen Handwerkskern in einer unserer Fabriken handgefertigt. Die Herstellung eines

*Kenny & Mason* Wasserhahns umfasst Stunden intensiver Handarbeit. Daher hat jedes Produkt seine eigene Seele. Unsere Produkte zeichnen sich aus durch die subtile Mischung von zeitloser Schönheit und Design, fortschrittlichen Technologien und authentischer Handwerkskunst, während immer Materialien der höchsten Qualität verwendet werden. Die Kollektion von *Kenny & Mason* kann in einer Vielzahl von Projekten weltweit gefunden werden, von exklusiven Hotels über Wellness-Einrichtungen bis hin zu privaten Projekten.

### Ru

Кенни & Мейсон начал производства в 1911, в регионе вокруг Бирмингема, в самом сердце английской промышленности по меди. Этот регион приобрел с 18 века всемирную известность в производстве изделий из меди и разработал отличную репутацию за эти годы. Каждый Кенни & Мейсон продукт сделан специалистами с ручной работы в одном из наших заводов. Производство Кенни и Мейсон крана требует несколько часов интенсивного ручного труда. Поэтому каждый продукт уникальный. Кенни & Мейсон характеризуется красотой и дизайном, производством с передовой технологией и употреблением материалов высшего качества. Во всем мире коллекция Кенни & Мейсон можно найти в различных проектах, начиная от эксклюзивных гостиничных проектов до санаториях и частных проектов.

## *IT'S A CRAFT*

We deliver the highest quality because our craftspeople strive for excellence, from the start of the production process to finishing products by hand. By constantly developing their skills and extending our knowledge, we make sure you get quality far beyond your expectations.

### **Casting, stamping and turning**

Brass has been a popular base material since Roman times. It's still a favourite for all kinds of high-end products today. You'll find it in everything from decorative hardware to the tiny, ultra-precise components used in the watch industry, as well as in the trim automotive companies use to catch your eye. However, it comes into its own in the bathroom; brass is incredibly resistant to corrosion, extremely durable and even serves as a natural disinfectant.

At *Kenny&Mason*, we use time-honoured production techniques to create products with a unique look:

- **Casting:** A process where solid bricks of brass are melted down under high heat. The liquid brass is then poured into a mould to create whatever shape is desired. Once it has cooled, the semi-finished product is sanded to remove any imperfections, then carefully hand-finished.
- **Stamping:** Brass blanks are pressed into a die by a multi-ton press. Painstaking hand-finishing ensures every product is perfect before it leaves our workshop.
- **Turning:** This technique is excellent for shaping cylindrical parts. A brass bar is spun on a lathe, and excess material is removed with a chisel. Hand polishing gives the parts the perfect finish.

## FROM THE KINGDOM OF ENGLAND

Centuries ago, in the heart of the British Midlands, the craft of producing porcelain ware was born. Even though the process drastically changed throughout the years, the spirit of the good old days remains at *Kenny&Mason*. It's no coincidence we make the most exquisite porcelain products in the kingdom of England.

### **Bespoke**

What do you do if the world of mass production doesn't have the unique character you've set your heart on? Look for it at *Kenny&Mason*. We specialize in bespoke solutions that meet specific needs—and exceed expectations. All our products are manufactured with high-quality materials, hand-finished by our skilled craftsmen and tested to ensure they perform to the highest standards. Our catalogue offers you excellent insight into our range, but talk to our Sales team about a custom order if you don't find the exact look you're searching for.

## *FINISHES*

All our products are made from solid, low-lead brass. You have a choice of six standard finishes, but special finishes are available upon request. Would you like to know more? Please contact us to discuss what you're looking for.

## ENGLISH CHINA

You'll find porcelain levers and pastilles on all our products, each with its own specific type of handle. They are all created using traditional methods, with meticulous hand-finishing. Would white, black or crackled china best suit your levers and pastilles? Or would personalized handles better bring your vision to life? Let us know. Our artwork service is always happy to help out.

*“We can also offer  
an artwork service to  
personalize your handles”*

# *Cleaning instruction*

Kenny&Mason tapware and accessories are made from premium quality brass, hand polished and then electroplated in a range of finishes. While Kenny&Mason coatings have a greater thickness and higher quality than usual, please follow these cleaning and care instructions in order to maintain the beauty of the product you have selected and to preserve your warranty.

The ideal care for all fittings is to dry them with a soft cloth after each use. Fittings should be regularly cleaned with warm water or a mild ph-neutral liquid soap and water and polished with a clean soft cloth. A microfiber cloth is gentle and effective for cleaning without scratching and needs only to be dampened to clean the product.

Residue left by personal hygiene products such as liquid soap, tooth paste, shampoo and shower gel can cause damage. Always rinse these off the fittings with clean water immediately after use.

Under no circumstances should harsh cleaning agents containing acidic, caustic or abrasive components or citrus, bleach or alcohol based substances be used to clean these fittings and should not be allowed to remain on metal finishes. Avoid dripping or overspraying such cleaning agents by covering the fixtures with a cloth or towel and metal finishes splashed with these products should be immediately rinsed with clean water and dried.

Do not use abrasive cloths, scouring pads, scrub sponges, steel wool etc as they may damage the surface.

If water causes lime or mineral deposits to build on the finish, place a cloth soaked in white vinegar over the deposits for several hours, then try a liquid soap cleanser. Drying the fitting with a soft cloth after each use will prevent mineral deposits.

## ***Chrome***

is the hardest and most durable finish in situations with daily cleaning. It may be cleaned with water or mild soap and water and dried off afterwards. It is still prudent to avoid commercial cleaning products which may contain corrosive chemicals.

## ***Nickel And Brushed Nickel***

finishes are known as “living finishes” which over time will develop a natural patina, giving them a distinctive classic look. Nickel and brushed nickel finishes require regular care and it is important to dry these finishes after use. Some water contains minerals that will leave deposits as water spots if allowed to dry on the finish. If this occurs, clean the fitting with soap and water and a soft cloth as above and occasionally give it a very light polish with Autosol ( available from automotive suppliers) to restore the original sheen.

## ***Gold***

plated products contain real 18 carat gold in the coating and being the softest finish, should be treated as you would treat any piece of fine jewellery. They should only be cleaned with warm water and a mild ph-neutral liquid soap and dried with a chamois leather cloth. Gold plating can be scratched and discoloured by perfumes contained in some soaps and lotions and the finish on a frequently used fitting may over time wear on the handle where it is frequently touched.

## ***Polished Brass And Old Brass***

Is a natural uncoated finish and will age to a bronze colour. It can be cleaned with a mild soap and water which will not alter the ageing process. If used in an outdoor environment, the brass may garner some verdigris with greenish tinge in places giving a truly organic look. This will not affect the performance of the product. To stop the ageing the tap can be sprayed with beeswax and polished with a dry cloth.

## *Warranty terms and conditions*

Kenny&Mason consistently produces the finest bath products in the world while providing highly personalized attention and detailed support to make the design and building process as smoothly as possible. Our extensive product range is crafted to simply be superior in every way. Attention to detail, quality and craftsmanship are an instinctive part of our manufacturing process. In every product we make, the mode of manufacture is carefully controlled - to satisfy the most demanding tastes.

### **Warranty information:**

- ✓ On quarryl bath tubs 25 Year
- ✓ On taps and accessories 10 Year
- ✓ On cast Iron bath tubs 10 Year
- ✓ On china 10 Year
- ✓ On cartridges 2 Year

## *Terms & Conditions*

1. All products should be installed in compliance with current water regulations by a fully qualified plumber and access should be allowed for maintenance.
2. All products should be cleaned and maintained in accordance with the manufacturerís recommendations. See the “cleaning instructions” on the previous page.
3. The guarantee does not cover faults caused by incorrect installation, neglect, misuse, wilful damage, wear & tear or inappropriate cleaning, failure to follow any recommended instructions, damage from lime scale or water content and other events outside the manufacturerís control.
4. No costs for replacements or labour will be repaid under this guarantee unless prior written agreement has been obtained from Kenny&Mason.
5. This guarantee does not cover any claims for consequential losses or damage.
6. The guarantee is not transferable and covers the original purchaser only.
7. All claims should be made through the original supplier and be accompanied by a copy of the original invoice.
8. All products should be carefully inspected prior to installation and if any faults are found the product should be returned for exchange and not installed.
9. Due to continuous product development we may not be able to provide a like for like replacement for a faulty product throughout the guarantee period. Should this be the case we will supply the nearest equivalent from the then current range. Under these circumstances we are not liable for any re-fitting difficulties or installation charges.
10. This guarantee is in addition to and does not affect your statutory rights.
